

INFINITE INNOVATION

DEVELOPER - PHP & REPORTS

The r2p Group has its headquarters in Flensburg, but have offices in the UK. We develop and sell intelligent technology systems for the mobile sector with highest quality standards: CCTV, passenger counting, Infotainment and fleet management with real-time data transfer for rail and road vehicles.

We are very passionate about our work. The r2p team is characterized by a high degree of commitment, team-work, friendly manners and humour, placing a high value on good work-life balance.

We are looking for an experienced **Developer** for Nimbus Journey Information, based in our UK office in Crawley, West Sussex.

EXPERIENCE

The r2p Group are looking for an **experienced Developer** to join our UK team, ideally with **front- and back-end experience** to take forward our core Real Time Tracking and Passenger Information application.

The ideal candidate should have:

- + The ability to **establish feeds** to and from a server infrastructure, **set up applications** and **get systems working** from it.
- + **PHP, MySQL, Linus** and **bash scripting** experience.
- + Knowledge of **Elastic** and **Kibana**.
- + Prior experience **report-writing** on the above technologies.
- + Experience **developing dashboards, management screens** and **user systems** on the above technologies.
- + Knowledge of **Laravel** or similar MCV frameworks/VMS desirable.

THE ROLE

We are looking for a developer to help design our application, which takes bus tracking data, accessibility needs information, media content and all journey/service-related data (both dynamic and fixed) to make it widely available to the public, service managers and service planners in a useful way.

This position would suit somebody who's willing to hit the ground running and who isn't afraid to put their own ideas forward, who works with initiative and flair, and most importantly who enjoys getting complex jobs done properly!

THE PACKAGE

- + Up to £40,000 per annum for the right candidate.
- + Includes benefits such as private healthcare, income protection, 25 days' holiday (plus bank holidays) and very good progression and training prospects.

HOW TO APPLY

Please send your application stating your earliest possible starting date and salary expectation to:

RUSSELL GARD (NIMBUS JOURNEY INFORMATION)
